

Tech Tools for Caregivers

This workshop, presented by FCA Family Consultant/Clinical Supervisor Christina Irving, LCSW, will offer a practical overview of how technology tools may help family caregivers provide care for a frail or ill family member, partner, relative, friend, or spouse at home. Technology products like smart phone apps, communication aids, in-home sensors, and webcams can help make a home safer, and help reduce the caregiving workload. The class will include information on how to determine what your needs are, the costs of tech tools, privacy considerations, and ease of use.

When: Wednesday, October 17
4:30 p.m. to 6 p.m.

Where: Peninsula Volunteers Rosener House
Adult Day Services
500 Arbor Road
Menlo Park 94025

Cost: No charge

Registration: Calvin Hu
(415) 434-3388 ext. 313
chu@caregiver.org
